Release from Damage

I, _____ relieve Coast Electric Power Association (CEPA) of liability from damage to premises and underground facilities as a result of installing service at _____. I am aware that I must locate the water, sewer and gas lines and that CEPA will not install the service until the panel is up, pipe is installed and the House or Lot # is visible from the street. I also understand additional service charges may apply if these items are not completed and additional trips are necessary to install service.
